The notes of other banks on hand appear to be all, or nearly all, notes of the Bank of the State of Missouri and of its branches. In addition, the Parent Bank at St. Louis reports "bank notes of branches on hand, $516,000." Deduct these amounts from those stated in the table, and the net circulation of the Bank of the State of Missouri will appear to be $1,460,650; and this amount is introduced in the general table.
