and the successful prosecution of their various vocations are intimately connected with the banks of this State. The introduction of a disturbing element into our banking system, by unwise amendments to our general banking law, cannot produce any beneficial effect, and it may result in unmixed evil, not only to the banks, but to the business of the whole community.

The people of the State have not for several years evinced, by petition or otherwise, any desire to make a radical change in our banking laws. They know full well that they enjoy a paper currency unequalled in the world; and all attempts, for the past few years, to make such changes have arisen from theoretical thinkers, and not from a practical knowledge of the working of our system of banking.

It is made the duty of the superintendent of the banking department of this State, by subdivision 3, of section 11, of the act to organize a bank department, "to suggest any amendments to the laws relative to banking, by which the system may be improved and the security of the bill-holders and depositors may be increased."

The legislation of the past two or three years having placed the internal affairs of the bank department on a footing that makes it both secure and efficient, and believing our currency entirely secure, and that neither the people of the State, nor the banks, require any change in our bank laws for their mutual protection, the superintendent most respectfully submits this report to the legislature, without any suggestions for an alteration or an amendment to our present banking laws.

All which is respectfully submitted.

JAS. M. COOK, *Superintendent.*
