NOTE.

The ten banks in the first division of this table, have made returns to the Treasury Department. A letter was addressed to each of the four banks named in the last division of the table, requesting a statement of their affairs, but no reply was received to any of these letters. From another source, information has been obtained of the amount of capital paid in, of each of these banks, which has been made the ground of an estimate of their specie, circulation, and other resources and liabilities.

The General Plate System.

Twelve new Banks have been lately organised in Ohio, under the Free Banking Law, all having the same leading title, **The Ohio State Stock Bank**, and all having bills alike, printed from what is termed a GENERAL PLATE—an exploded New England idea, begat in economy and buried in extravagance; experience having proved that a well executed original plate at the outset would save the amount paid for the notes of the general plate. The New England Banks are now very generally giving up these notes and ordering new plates. It is only about two weeks since we gave the names of five Banks which had given notice of their intention to withdraw the bills of these plates, and issue new ones in their stead.

The great aim of Bankers in getting up their bills, should be to avoid similarity of notes—to crowd the bill as full as possible of FIRST RATE work, (NO second class work,)—to print the denomination in indelible colors, not removable by acids. The more first class work you put on a note, the more you multiply the trouble of imitation, and increase the means of detecting counterfeits. A cheap second class note is easily counterfeited, and the Bank is soon necessitated to substitute a new one.

Our friends in Ohio might do well perhaps to reflect on this **General Plate System.**

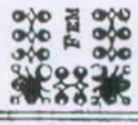
C. R. ALTON.



Rawdon, Wright, Hatch & Edson, New-York.

The above gives the leading features of what, on casual inspection, seems to be a ONE DOLLAR BANK NOTE of this State, but what in fact is a mere draft of C. R. ALTON, on a MR. CHANDLER, payable to the order of L. BLOSSOM. Who these parties are, their friends can best tell, we aim not to identify them;—but what we do aim at is, to fix on such issues their true character. To put out a One Dollar Note of Hand or Draft in the above form, is to us evidence of an intent to deceive, and we therefore feel called upon to guard our subscribers against the **FRAUD.**

MONEY MARKET.

MONDAY EVENING, Jan. 12. 1852.

If any proof of a sound state of Financial, Political and Commercial prosperity were wanting, it is found in the price of stocks and the success of heavy loans when brought on the market.

Last week $3 000.000 of Erie Railroad convertible bonds were taken at 87¾, and $1 000.000 of Virginia bonds were taken for foreign account at 105. Large amounts of United States stocks have changed hands, mostly for foreign account, at 116¾. New-York stocks are also in demand at 114, and Ohio long stocks are in demand at equally high prices.

Money is abundant at 6 to 7 per cent. There is, however, a lack of confidence in commercial paper and a fear that a few more failures are yet to take place.

The Banks are returning to their old system of dealing with each other with liberality.

Currency does not rush in for redemption rapidly, and the Country Banks are growing much easier. On the whole the spring will open with uncommon promise. The fever for more Banks and more paper currency rages in every part of the country. This is a guarantee of expansion and speculation, and of still higher prices.

The science of Free Banking, or the substituting of stocks as a basis for currency instead of specie, is having a magical bearing on the finances and business of the whole country. The people are better satisfied with a currency based on good stocks than on specie; especially when the stocks are held by the State authorities in trust for the redemption for the currency.

We have nothing particular to say about the Banks. All appear to be getting along very well, and the domestic exchanges are as usual. The rates of discount are:

Boston	⅛@¼	Mobile	⅜
Philadelphia	⅛@¼	New-Orleans	½
Baltimore	⅛	North Carolina	1@1½
Richmond	1@1½	Cincinnati	1@1½
Charleston	¾@1¼	Louisville	1@1¼
Savannah	¾@1⅜	Nashville	2@3
Augusta	¾@1¼	St. Louis	1@1½
Columbus	¾@1¼	Detroit	1½@2

The stock market opened this morning dull and and rather heavily. The new Erie Convertibles sold at 87¾ cash, and 86½ a 86¼ ninety days' time, seller's option.

The Erie Stock subscription books re-opened to-day, but the transactions have been fewer than was anticipated.

The shipments of specie last week amounted to $843,977, of which $630,926 was taken by the *Pacific* for Liverpool. The *Daniel Webster* has brought about $600,000, and advices of a larger amount on the way; so that we may expect an arrival every hour. Gold Dust has become rather scarce, and the remittances will be partly in fifty dollar pieces of Moffat's coinage.

The San Francisco Bankers charge 4 per cent exchange for three days' sight bills on the Atlantic States, and two per cent premium for sixty day bills.

The supply of Sterling Exchange is improving, and specie shipments are comparatively less.—Rothschilds still send a portion by each steamer without insurance, which yields a small commission at 10½@10¾ per cent premium, the ruling quotation for prime bills on London and Liverpool.

For Rates of Discount on Uncurrent Money in PHILADELPHIA, BALTIMORE, BOSTON, } See page 30.

CAUTION:

Below we give descriptions of several plates which are capable of being altered to any BANK, and any denomination. Our subscribers, therefore, will do well to remember their description.

$1.227.458, while the exports of produce are very light. Cotton shipments are increasing rapidly here and at the South; but those of Breadstuffs were limited to Flour and Wheat, mostly Southern and Canadian. The stock of Western is insufficient for our own consumption here and eastward during the next three months, and prices will rule above shipping point for that period.

RAILROAD BONDS.

An expression of opinion against Railroad Bonds as an investment, we are well aware, is unpopular at present. Those who are purchasing such bonds for the sake of 9, 12, and 15 per cent interest on the outlay, are trying to think well of them, and dislike to have them distrusted. Those who are shoving their hobbies through mountains, swamps and forests will wish us to the d—l for suspecting the goodness of their roads, and those who have whole sections and townships of new country to be settled—farms to be made more valuable—villages and cities to be built up, will denounce us as a vile Wall-st. "bear,"—a croaking granny. For all this we are very sorry; we like the good opinion of all mankind, and especially of all the active spirits of the country who go for Railroads because they are public conveniences, without regard to cost or prospect of profit. But we like prudence and truth more, especially when the very bread and clothing of the aged, the widowed, and the orphan are jeopardized.

Some Railroad bonds are good, but we must acknowledge that it requires a longer head and more insight into futurity than we have, to sort the good from the bad; besides, the good bear so small a proportion to the bad, that the chances are very much against the purchaser, even if he goes in blind—or, as the saying is, puts an egg into each basket.

—— At the annual meeting of the stockholders of the BANK OF THE UNITED STATES, held in Philadelphia, 5th inst., Josiah Randall, Esq., offered the following resolution, which was referred to a committee to be reported on at an adjourned meeting on the third Monday in February:

Resolved, That the stockholders of the BANK OF THE UNITED STATES, by a majority of the votes now present or represented, according to the scale of votes allowed at elections of directors, do now decide that it is expedient for the Bank of the United States to make a general assignment of the real and personal estate, goods, chattels, rights and

liquidation of that portion of the debt of the late Republic, for which the impost revenues of Texas were not specially pledged.

—— The Banks of Baltimore have published their annual statements of their condition on the first instant, according to law. The Baltimore *Patriot* makes the following synopsis of these reports, or general table, giving a condensed view of the several reports for each Bank, and the aggregate of the most important items. We have added the aggregate of the returns made for several years back:

REVIEW
OF THE NEW-YORK MARKETS.

THURSDAY EVENING, Jan. 8, 1852.

The advices from Europe since our last are more favorable to our markets. Cotton has advanced ⅛d per pound in Liverpool; and there is more activity in the Havre market. Fair Uplands are quoted in Liverpool at 5d, Mobiles 5d, and New Orleans 5⅛d.

The Liverpool demand for Flour was improving, and prices were firm, with an upward tendency. Western Canal, 16@20s; Southern, 19@20s; Canadian, 19s 6d@20s. Provisions continued depressed in price and all descriptions dull, and barely maintained previous rates.

man harrowing, and to the left a man ploughing,—between the names of the officers is a mechanic's arm and hammer. This is an alteration, probably from a fraudulent Wisconsin bank plate, and the engraving being good, is well calculated to pass through the hands of those who are not good judges of money.

5s, centre vignette, a female (Justice) resting on a short column, holding a sword and scales in her hands—each side of the vignette, a square die, containing a large letter "V,"—on each end margin, a female holding a rake in one hand and a sprig of grain in the other, with the figure "5" in each corner of the note,—the FIVE occurs five times on the top and five times on the bottom margin. It bears the imprint of "Draper Underwood, Bald & Spencer."

No. 7.

3s, centre vignette, a female standing beside a shield containing an eagle, surrounded by emblems of agriculture and art, with a ship, &c. On the left end a scroll containing a figure 3. On the right end a ship under sail, with the word THREE on the upper and lower corner.

The following is Mr. Dale's (the Treasurer.) statement of the business of the Philadelphia Mint for the week ending 10th January:

	Deposits.	Coinage.	Payments.
Gold	$2,152,600	$836,252	$2,093,071 98
Silver	13,000	4,500	1,722 60
Total	$2,165,600	$840,752	$2,094,794 58

The markets present little variation since our last general notice; and few are the alterations we have to make in our Price Current list. Cotton has been especially active. The sales are large, averaging 3000 bales per day, and prices are steady, as the supply is free at the current rates, there being considerable anxiety to sell on the part of holders.

Advices have come to hand to day from San Francisco, under date of the 15th December, but they are not very favorble for business. The markets were only moderately active at depressed prices—the consequence of excessive stocks. The articles mostly wanted, and which brought remunerative prices, were Hardware, Agricultural Implements and choice Segars. Lumber was becoming scarce. Breadstuffs were dull. Mills were in course of erection for the manufacture of Flour.

The Imports of Dry Goods in this port for last week, were $2.756.887, and of general merchandise,

decide that it is expedient for the Bank of the United States to make a general assignment of the real and personal estate, goods, chattels, rights and credits whatsoever, and wheresoever, of the said corporation, to trustees for the payment or securing the payment of the debts of the same.

Total amount of State Debt redeemable	15.584.893
Perpetual debt to School and Trust Fund	1.754.332
Grand total	$17.339.225

The revenues of the State for the year ending 15th November last, were, net, from canals, $512.-000, from taxation, $1.429 000, miscellaneous, $510.-000—$2.451.000

—— An act has passed the Texas Legislature, appropriating the proceeds of the sale of the U. S. Bonds received under the Boundary Act, to the

pressed in price and all descriptions dull, and barely maintained previous rates.

ASHES—We notice rather more doing since our last in Pots, with sales of Old Pots at $4.87½; new bills at $5.00. Pearls have ruled quiet but steady at $5.62½ with light receipts.

COFFEE—The market is very quiet. There is no St. Domingo in first hands, and but small parcels in second. Prices are steady.

COTTON—Another week of fluctuation. The first three days a dull demand prevailed, and prices receded an ⅛c; the last three days since the arrival of the *Atlantic* the demand for shipping has become active, and the decline has been recovered, the market closing with an upward tendency.

Imports in Liverpool 1st Jan. to 19th Dec	1.708.461	1.543.148
Consumption in do	1.536.049	1.335.668

The course of prices is likely to be fluctuating within very narrow limits. The increased consumption and light stocks in Europe tending to strengthen the market, while our increasing receipts and large views of crop tend to check that feeling a little. Lower prices would ensure larger transactions.

DRUGS AND DYES—Are dull. Sal Soda and Soda Ash enjoy a steady demand at our quoted prices. Oils of Cassia and of Anis are selling, to arrive, being scarce. Sulphate of Quinine has further been reduced, and is selling at $3.

DRY GOODS—The demand is yet light. Commission houses are busy receiving their goods for the ensuing season. Southern houses are beginning to sell. Clothiers, however, still lag in their purchases. Cotton goods are firm and have an upward tendency. Woollens on the contrary are lower and have a downward tendency. Cotton Yarns are slightly accumulating in stock, but are firm at 15c cash. Heavy Cotton Sheetings are firm and buoyant. Bleached goods with less buoyancy are steady. Brown Drills are firm at 6¾@7c. Bleached 7¼c and Blues 8¾c. Osnaburghs are light in stock with a fair demand and steady in price. Denims are in request for export, and firm. Stripes and Ticks are both in rather better demand. Canton Flannels are still active, absorbing all the receipts. Printing Cloths are dull and heavy at 3c up to 4⅜c. Prints are coming freely forward, but the trade is hardly open. Ginghams are also inactive. Cotton Pantaloonery is in fair request and steady. Delaines are in market for the spring trade, and a few bills are selling for the south. Cloths are lower, holders being anxious to sell. Fancy Cassimeres are inactive, but plain colors, Doeskins and Blacks are steady, with moderate sales. Tweeds and Jeans are dull. Sheeps Greys are not active, the demand being over for the season. Flannels are quiet. Blankets dull and

heavy. Shawls are out of first hands. British goods sell moderately at steady prices. The importations are on the increase. French goods are hardly open for the season, but the quantity arriving is very large, and business will not fail for want of supply. Goods, however, have advanced in France.

FEATHERS—The supply is very light and the demand moderate, and prices are quite nominal.

FLOUR AND MEAL—There has been more animation the past week in Western and State Flour, with more buoyancy and a better demand for the East and for export. The receipts have been light from the South and by the different railroads, and those in prospect are moderate, especially from New Orleans—this together with the favorable advices per the two last steamers from Europe, have imparted firmness and more activity to the market, and a slight improvement in prices has been obtained on the low grades and with more inquiry at the close. More buoyancy is apparent in the low grades of State and the better brands of Western (Ohio.) Canadian has been in good request at improving prices—the high prices at which it is now held restricts the demand materially. Holders are firm in views of the very light supply, and a good prospective demand from the British Provinces and for Europe. Southern is better—the demand has exceeded the supply, especially for the low grades; there has been more done for the trade and for export, in part for Liverpool and London, as well as for the West Indies and the Spanish Main. The receipts have been less than were expected, owing in part to adverse winds, and the tendency is upward, with something doing in *old* in store at $4 25, including a lot of 1000 barrels Brandywine at $4 25 for export, showing a firm market. Corn meal has been without change or activity, and prices are nominal, the same with a limited supply. Rye Flour is scarce, and very little has been done, and no change can be noted. In Buckwheat Flour a good business has been done at $2 12½@2 37½ per 100 pounds. Barrels are scarce and wanted at $4,87½@$5.

FISH—Is very dull. The arrivals have been confined to Mackerel, of which 2200 barrels sold during the week of Nos. 1 and 2 at quotations. 400 barrels Pickled Herring sold at $3.37½. Dry Cod is held ot our quotations for store.

FRUIT—Is less active. Raisins are steady, with moderate sales at quotations. New Crop Zante Currants realize 5c. 4 mos. Porto Rico Oranges are selling at $4@$5 per bbl.

GRAIN—Very little of interest has transpired in Wheat since our last. With the exception of an advance in Ohio Wheat, other kinds are held higher, with but few sales, and our quotations are somewhat nominal. The very light stock of Domestic, not exceeding 70,000 bushels, induces great firmness with holders, and the receipts, present and prospective, are limited. Very little can be expected by railroad, and that from the south is wanted for

OIL CAKE—The market is dull for want of stock, small lots of City Thin and Country do. have been sold at old prices, no Thick Round here.

PROVISIONS—Our market for Pork since our last review has ruled very dull and heavy until yesterday, when a better demand prevailed and a slight reaction in the price of New Mess was observable, with a decided improvement in the demand both for the home trade and for shipping, in part for the West Indies. The receipts have been light, and our city packers are doing less, owing to the falling off in the supply of Dressed Hogs, the season being nearly over, the supply is but little more than is required for the city retail trade, and prices have slightly improved, hence the buoyancy in Pork. Holders generally are firm, looking for a deficiency in the slaughter as compared with last year, of which we are not advised as yet. The supply of Sour, Clear, Thin and Prime Mess is light, and the transactions very small—quotations would be nominal. Beef has ruled very dull, and is more freely offered on the spot and to arrive from New Orleans, and the sales have been mostly to the local trade and for ship-stores. Beef Hams have arrived freely, and with a limited demand, prices are lower, and the market is dull at the recent decline. Holders are disposed to realize at present figures. Dressed Hogs have improved and are scarce and in demand at 6½@6¾c. Prime Mess Beef has ruled very firm, but inactive—the stock is light and in few hands, and held at $15@16. Pickled Meats are more plenty, and are dull at a slight decline as per quotations. Bacon has ruled very dull, and is heavy, at 7½c for Ribbed, and 8¼c for Boneless. Lard has come forward very sparingly, and with a fair home and some export demand, prices have improved, and are firm, with a light stock. Butter has ruled dull, but steady; the demand for the East has been limited, and the home trade have purchased only in small lots, holders are firm however, and the stock is light. Cheese is less buoyant and quiet; the demand is moderate for export and the trade.

RICE—Is in request for shipping, and sales are making to arrive. 1000 tcs have been sold during the week at $3 12½ up to $3 50. There is little prime to be had

SPICES—Are very dull, and quotations are realized with difficulty.

SUGARS—Are very dull, but prices are steady. The sales are only a few Cuba Muscovadoes, New-Orleans, and Brown Havanas, all under the highest quotations, as prime qualities are scarce, though the stock is large.

SEEDS—Nothing of moment has transpired since our last, prices are quite nominal.

STEARINE—Is more firm and is in moderate demand, but at prices not made public.

TALLOW—A dull market, with little doing for export, prices favor the buyer, with more offering.

figure "3" in the upper corner, and THREE in the lower corner,—an anchor, &c., between the signatures.

No. 9.

3s, centre vignette, a female with horn of plenty in one hand and Mercury's wand in the other; town, bridge, shipping, &c., in back ground. On right margin three sloops under sail, and figure 3 at top—on left margin, drovers, cattle, hogs, &c., with figure 3 at top. This is likely to pass mixed up with other bills, but on close inspection, the engraving will appear coarse.

No. 10.

1s, centre vignette, three blacksmith, a forge, anvil, &c., with a feint line figure "1" each side—a Saracen's head with the word E on the right end, and a female resting and writing on a slab supported by a short ornamented column, and the word ONE on the left end. This bill has a suspicious look.

No. 11.

20s, centre vignette, a large sheaf of wheat and agricultural implements, with canal, railcars, &c., to the left—on right end a large die enclosing figure 29, with a small eagle, and double XX below—on left end double XX, with a female feeding an eagle below—a small eagle between the officers' names.

No. 12.

2s, centre vignette, a female seated beside a sheaf of wheat and agricultural implements, with small railcars in the distance. On the right margin is a portrait of Washington, with the word TWO in the upper and lower corners. On the left margin is a small female, with a figure "2"

with holders, and the receipts, present and prospective, are limited. Very little can be expected by railroad, and that from the south is wanted for export at prices far above the current value of other kinds of wheat, we therefore look for no addition of moment to our stock until the opening of River navigation. Canadian is mostly in the hands of one house, and we hear of very little doing beyond some shipments reported from first hands. Indeed, since the receipts of the late advices at Halifax, per *Cambria*, there is less buoyancy in the market, and more willingness to sell. Rye is inactive, with little coming in, and a limited demand for distilling, prices are nominal. Barley is very dull and heavy, with more offering at our figures. Oats, with large receipts, have declined materially, and have been more active and are now heavy, with some addition to our supply from P. E. Island, which has depressed prices in part. In Peas there has been a limited consumptive demand at 70c@75c. Corn has been more freely offered from store, and with a moderate home and eastern demand, prices have declined, and the tendency is still downward, with nothing doing for export. White is scarce and would sell to some extent for export.

HAY—Only a limited business doing in River at 75@80c—about 1200 bales have changed hands.

HEMP—Continues very quiet. Dew-Rotted American has been selling at $117 50, and Manilla 10¾c in Boston, to come to this market,

HIDES—Are very dull. The African Hides have been sold at 13½c; Orinocos are very heavy; the recent arrivals move slowly—the stock is about 101.000 Ox and Cow. Buenos Ayres qualities are rather lower. A few Curacoa Goat Skins sold 52c.

HOPS—A dull market, the supply is equal to the demand and prices are steady at 27@33c, and retail lots at 32@35c.

IRON—Is becoming very inactive. 300 tons Scotch Pig sold at $19@20 cash and 6 mos. respectively.

LEAD—Is inactive. A few Pigs Galena sold at $4 45. The arrivals for New Orleans are increasing.

LEATHER—Has been in fair demand. Many Eastern buyers are in town; and as manufacturers held off for a long time, their reduced stocks are compelling them to come into market and buy. The prices are consequently on the advance, stocks being not large.

MOLASSES—New Orleans is the only kind moving, and that has further declined one cent, owing to large arrivals. Distillers are are not buying. Clayed Cuba is ½c lower.

NAVAL STORES—All kinds are dull. Rough Turpentine is firm. White Spirits are drooping, the sales being small at 34@35c cash. Tar is inactive. Common Rosin is selling in small parcels, at $1.35@$1.37½ for Wilmington; Newbern, $1.20@$1.25. Wine is inactive.

OILS—Are very quiet. Whale is firm. Crude Sperm rather active at $1.27. Linseed dull at 61@62c, at which parcels both wholesale and retail are selling. Olive is active at quotations.

TALLOW—A dull market, with little doing for export, prices favor the buyer, with more offering.

TEAS—Two public sales have occurred during the week, the first of the season, but being very old or poor teas, met with no favor in the market. The Greens offered were forced on an unwilling market, and prices receded 4c per lb. The Blacks are more firmly held, and were consequently withdrawn. Several other sales are announced.

TOBACCO—The market is dull for all kinds, though prices are without change. Were holders less firm, the transactions would be greater. Desirable parcels, both of Spanish and Kentucky, are scarce and wanted. The stocks are light, much lower than on the 1st Dec., namely:

	1st Jan. '52.	1st Dec. '51.
Kentucky	4.815 hhds.	6.105 hhds.
Georgia & N. C.	281 "	384 "
Total	5.096 "	6.489 "

A reduction of 1393 hhds. The receipts have been only 209, while the deliveries have been 1602 hhds. during the month. The stock of foreign is—Havana, 722 bales; Cuba, 1034 bales; Yara, 454 do.; St. Domingo, 488 do; Ambulema, 252 do; Brazil, 100 bags. Connecticut Seed Leaf is dull and heavy at nominal prices. Florida is in request; but little good is in market. Manufactured is very dull, though less so than last winter. The stock is 25,517 packages, which is not very large. Prices are nominal, from the absence of an effective demand.

WOOL—The market is less active. Manufacturers think that lower prices will yet rule long before the new clip can come to market, and therefore only buy for immediate wants. The numerous failures among manufacturers operate injuriously on the market, and holders make considerable concessions from asking prices for cash payments. The chief demand is for Wool from 36@42c. Pulled is still scarce and firm. Foreign inactive. The late speculative purchases by dealers are still unsold; but being held mostly by two houses are very firmly held. On the whole we notice less buoyancy in the market than ten days ago. Some parcels of Unwashed Southern Fleece sold at 22c cash

New-York Cattle Market.—Jan. 5.

the left margin for a small female, with a figure "2" above, and the word TWO below. Between the signatures is a small eagle.

No. 13.

5s, on the Bank of South-Carolina—Centre vignette, a female seated on a bale of goods, with Mercury at her feet; harbor and shipping on left; canal and railcars on the right, with a die and figure 5 each side—on left border a ship under sail, with the word FIVE above and below—a small eagle between the President's & Cashier's names.

3s, same as the above, except the centre vignette, which represents Liberty, with cap and pole, eagle, horn of plenty, ship, railcars, canal, &c.

1s, differ from the above only in the vignette, which has two figures (Union and Liberty) and a small steam ship in the distance.

No. 14.

5s, the centre vignette is the figure of Hope reclining on an anchor and looking seaward, with a rainbow and ship in the distance. On the right margin is the head of a child, and on the left an kneeling cupid writing on a rock. The notes have a clean, artistic appearance and likely to decive.

No. 15.

3s, centre vignettes, three females, ships, sheaf of wheat, &c.,—on each side of it a die, with figure 3—on right end a portrait of Washington and a fine 3 above and below—on left end, small state arms, and a fine 3 above and below.

No. 16.

5s the leading feature in the vignette is an eagle with wings upraised,
