

FEDERAL RESERVE BANK OF MINNEAPOLIS

Pursuing an economy that works for all of us

Paul E. Ljung
MANAGER, STATISTICAL &
STRUCTURE REPORTING

April 8, 2021

To the Chief Executive Officer of the Holding Company,

The final reporting forms and instructions for the FR 2314/FR 2314S, FR 2886b, FR Y-7N/FR Y-7NS, FR Y-9SP, FR Y-9LP, FR Y-11/FR Y-11S, and FR Y-12, effective for March 31, 2021, are posted to the Board's public [Reporting Forms](#) website. The final FR Y-9C form and Supplemental Instructions, which provide guidance on accounting and reporting issues, effective for March 31, 2021, also are posted on the Board's [Reporting Forms](#) webpage. Updates to the March FR Y-9C instructions will also be available soon on this webpage. Please note that the separate standalone COVID-19-related Supplemental Instructions previously provided for the FR Y-9C have been incorporated into the March 2021 instructions, as appropriate. The following sections provide an overview of the reporting changes for March 2021.

GAAP Related Changes

On January 4, 2021, the Board published a final *Federal Register* notice¹ to revise the FR Y-9C form and instructions to be consistent with changes to U.S. generally accepted accounting principles (GAAP). The revisions are effective March 31, 2021, and include changes related to: 1) provisions for credit losses on off-balance-sheet credit exposures, (2) expected recoveries of amounts previously charged off included within the allowances for credit losses, and 3) nonaccrual treatment of purchased credit-deteriorated assets. There are also revisions to the FR Y-9LP and FR Y-9SP forms to reflect changes on reporting of provisions for credit losses on off-balance-sheet credit exposures. There are two new FR Y-9C data items related to the GAAP changes: Schedule HI-B, Part II, Memorandum 7, "Provisions for credit losses on off-balance-sheet credit exposures" and Schedule HI-B, Part II, Memorandum 8, "Estimated amount of expected recoveries of amounts previously written off included within the allowance for credit losses on loans and leases held for investment."

Regulation D Rulemaking

The Board revised the FR Y-9C and FR 2886b instructions to implement changes also published in the January 4, 2021, final *Federal Register* notice.² The changes which are effective March 31, 2021 clarify the reporting of savings deposits for institutions that have suspended the enforcement of the six-transfer limit rule on an account that meets the definition of a savings account. Furthermore, there are additional clarifications to the FR Y-9C and FR 2886b instructions to clarify the differences between the definition of "savings account" in Regulation D versus these reports.

² 85 FR 23445

Home Equity Lines of Credit (HELOCs)

Effective March 31, 2021, the FR Y-9C form and instructions for Schedule HC-C, Loans and Lease Financing Receivable were updated to implement changes published by the Board in a final Federal Register notice³ on April 1, 2020. A new line item, HC-C, Memorandum item 15, was added to the FR Y-9C report to collect the amount of HELOCs that have converted to non-revolving closed-end status that are included in item HC-C 1.c.(1), “Revolving, open-end loans secured by 1–4 family residential properties and extended under lines of credit.”

Asset Threshold Rulemaking

As previously advised, the federal banking agencies recently issued an [interim final rule](#) (IFR) providing relief to financial institutions with under \$10 billion in total assets as of December 31, 2019, by allowing them to calculate their asset size for applicable thresholds in certain rules during calendar years 2020 and 2021 based on the lower of total assets as of December 31, 2019, or as of the normal measurement date. In particular, the IFR adjusts the measurements dates for total asset thresholds that would trigger additional regulatory reporting requirements for the remainder of calendar years 2020 through the end of 2021. The IFR also allows institutions that temporarily exceed the \$10 billion total asset threshold to use the community bank leverage ratio framework, which is applicable to the FR Y-9C Schedule HC-R, from **December 31, 2020**, through December 31, 2021, provided they meet the other qualifying criteria for this framework. For each of these report dates, an institution would use the lesser of its total assets as of December 31, 2019, or as of the current quarter-end report date to determine whether it has met the \$10 billion total asset threshold.

Consistent with the IFR, an HC may use the lesser of its total assets as of December 31, 2019, or as of the normal measurement date to determine whether additional filing requirements are applicable for each of the following reports:

- FR 2314/FR 2314S
- FR Y-9C/FR Y-9LP
- FR Y-7N/FR Y-7NS
- FR Y-11/FR Y-11S

Confidentiality Checkbox

Effective March 31, 2021, institutions filing the FRY-7N and FR 2886b will be required to select a checkbox if confidential treatment is requested for any part of the form they are completing.

FR Y-9 Reports Submission

HCs filing the FR Y-9 reports (FR Y-9C, FR Y-9LP, FR Y-9SP, and the FR Y-9ES) are required to submit each report electronically. HCs must maintain in their files a manually signed and attested printout of the data submitted. The cover page of the Reserve Bank supplied report forms should be used to fulfill the signature and attestation requirement and this page should be attached to the printout placed in the HC's files.

³ 85 FR 18230 (April 1, 2020)

If you complete the preparation, editing, and review of your report(s) before the submission deadline, please file the report(s) immediately rather than waiting. Early submission provides for additional time for your institution to become accustomed with the new enhanced electronic submission process, and aids the Federal Reserve in the editing, review, and analysis of the reports. If you later find certain information needs to be revised, please make the appropriate changes to your report and promptly submit the revised data.

The Federal Reserve developed Reporting Central (RC) to enhance the overall reporting functionality of the Federal Reserve Banks' data collection and processing activities. These enhancements will allow for a more secure, technically advanced, and efficient system that will encompass a single point of entry for electronic submission and file uploads. Financial and nonfinancial institutions will access RC via the FedLine® Web Access Solutions site to submit reports and gain access to electronic reporting applications, report forms, and instructions. The [Reporting Central application](#) can be accessed for additional information including an online resource center. If you have any questions regarding RC, please contact your Reporting and Reserves District Contact.

One aspect of the transition to RC necessitates the Federal Reserve to modify its internal procedures for handling confidentiality requests for those HCs that submit data electronically. Generally, individual respondent data collected on the FR Y-9C and FR Y-9LP are made readily available on the [National Information Center](#) public website and the FR Y-11 and FR Y-12 reports are available to the public upon request on an individual basis. All data are published, with the exception of items deemed confidential per the report's instructions, unless the individual HC from which the data were collected has been granted confidential treatment or has a request pending. A HC may request confidential treatment for the entire report or for specific items on the report. To better facilitate confidentiality requests and ensure the data are properly handled during the review of the request, the Federal Reserve strongly encourages institutions that are of the opinion that disclosure of certain commercial or financial information in the report would likely result in substantial harm to its (or its subsidiaries') competitive position or that disclosure of the submitted personal information would result in unwarranted invasion of personal privacy to:

- (1) Notify their Reserve Bank of their intent to request confidential treatment in advance of the written request, and
- (2) Send the confidentiality request in writing prior to data submission.

For institutions that do not submit data electronically, written requests for confidentiality may be provided concurrently with the paper submission of the report.

For more information on confidentiality requests, please see the specific report's General Instructions. **Note:** The information referenced above pertains to the existing manual process for submitting confidentiality requests. The final notice to add the confidentiality check box to the front page of the FR Y-9C, FR Y-9LP, FR Y-9SP, FR Y-9ES, FR Y-11/S, and FR Y-12 forms was published in the [Federal Register](#).⁴ The implementation date for the new confidentiality check box procedures has been determined and has been implemented for some reports (FR Y-9ES, FR Y-9SP, FR Y-12, and FR Y-7NS). For the March 31, 2021 as-of date, confidentiality check box procedures will be implemented for the FR Y-7N and FR 2886B. Institutions will be provided with ample notice to prepare for submission of the new confidentiality check box requirements.

As mentioned above, the Federal Reserve publishes FR Y-9 report submitted data to the [National Information Center](#). Data is published on a flow basis within two days following receipt of a submission from the HC, and updates are run nightly to capture any revisions subsequently submitted by the reporting institutions.

HCs may subscribe to the Federal Reserve Board e-mail notification service to receive alerts regarding report form and instruction updates at: <http://www.federalreserve.gov/reportforms/whats-new.htm>. These updates include changes related to proposed new and existing data collections and final reporting forms and instructions.

All questions regarding these reports should be addressed to mpls.statistics@mpls.frb.org.

Sincerely,

/s/
