THE COVID DATA CHALLENGE

- Speed of pandemic = need for real-time information
- Most macro data time-lagged; less COVID-relevant
- How to start filling the gap? More outreach!
  - Regional Outreach: 11 surveys since mid-March; almost 9,000 business responses, 25,000 comments
  - General business survey (July 20-24): 1,100+ responses
  - Construction survey (July 27-31): 600+ responses
  - Professional services survey: Currently in the field
REC: A new webinar series from the Minneapolis Fed

- Extension of annual Regional Economic Conditions Conference connecting people & research related to Ninth District economy
- More surveys and more real-time data being gathered
- Webinars help Bank connect with businesses and community leaders about real-time conditions in the Ninth District
- Enhanced data sharing: Greater value for survey partners and survey participants
A BIG THANK YOU TO PARTNERS

- Too many to list and thank individually
- Almost 30 partnering organizations that send Bank survey to members/contacts
- Every District state represented
  - State chambers of commerce
  - Regional chambers of commerce
  - Economic development organizations, including those representing minority-, woman- and veteran-owned businesses
GENERAL BUSINESS SURVEY

- Conducted July 20-24, 2020
- Total responses: 1,129
  - Responses from all states in the District, though smaller responses in the Dakotas, Montana and Upper Peninsula
  - Broad sectoral response
  - Good representation from minority-, woman- and veteran-owned firms
DISCUSSION OVERVIEW

- Trends in revenues, staffing, wages, capacity, customer demand, solvency
- Firm traits: State – Sector – Size – Ownership
- Results are a snapshot
  - Not a scientifically sampled survey
  - Interpret with care
- Use the chat box for questions (taken at end)
Sales continue to struggle

Roughly half seeing negative revenue trend

Respondents nervous about the near-term

**OVERALL TREND: CURRENT AND FUTURE REVENUE**

Please estimate COVID's effect on average sales/revenue at your firm, and future expectations

- Declined > 25 percent
- Declined 15-25 percent
- Declined 5-15 percent
- Flat (+/- 5 percent)
- Increased > 5 percent
- Don't know
**COVID IMPACT: BY STATE**

**Geography matters***

(* = some)

**Results by state: more same than different**

**State policy:**
- Some role, but likely on margins; response composition matters
- SD = more finance responses; no sole proprietor responses

---

**Recent revenues, by state**

Revenue for June-July compared with April-May

- North Dakota
- Minneapolis-St. Paul
- Greater Minnesota
- Wisconsin
- Montana
- Upper Peninsula/Mich.
- South Dakota

- Declined > 25 percent
- Declined 15-25 percent
- Declined 5-15 percent
- Flat (+/- 5 percent)
- Increased by more than 5 percent
- Don’t know

---

*FEDERAL RESERVE BANK OF MINNEAPOLIS*
COVID IMPACT: BY INDUSTRY SECTOR

Revenue in June-July compared with April-May

Industry sector matters:
All sectors hurt, but entertainment/recreation, accommodation, food & drink firms damaged the most.
COVID IMPACT: BY FIRM SIZE

Size matters

Sole proprietors and small firms more likely to see revenue decline (also taking the brunt of wage cuts)
Ownership matters

Minority-, woman- and veteran-owned firms saw more negative impacts on revenue

However these firms also: 1) tend to be smaller; and 2) tend to be over-represented in harder-hit sectors (food, lodging, entertainment, retail)
OTHER ‘BIG PICTURE’ RESULTS
WORKFORCE CUTS

Workforce: What effect has COVID-19 had on current and expected future staffing at your firm?

July staffing compared with May 2020 levels:

- Significantly lower
- Modestly lower
- No change
- Modestly higher
- Significantly higher
- Don't know

Expected staffing at end of September compared with current levels:

- Significantly lower
- Modestly lower
- No change
- Modestly higher
- Significantly higher
- Don't know

One third of firms continue to see workforce cuts, and they expected further cuts over the coming months.
COVID’S EFFECTS ON WAGES

Roughly one-third of firms have cut wages at some level.

Wage cuts tend to be by > 10 percent.

About one-quarter envision additional wage cuts by end of the year.

What has happened to average wages at your firm?

- July average wages compared with pre-virus levels
- Additional wage actions expected between now and the end of the year

Options:
- Wage cuts > 25%
- Wage cuts of 10-25%
- Wage cuts of 1-10%
- No change (+/- 1%)
- Wage increase of 1-5%
- Wage increase of > 5%
- Don’t know
Firms of all sizes experiencing wage cuts, but sole proprietors and very small firms seeing much more negative impact.
Overall operating capacity has improved since the early onset and shutdown in most states, but …

- Has not changed much since May
- Is not expected to improve much by end of September
Customer demand lagging even with restrained capacity

Expected to improve, but only marginally
Firms pulling back only modestly on the new home-office environment

Please estimate the share of staff work time done remotely at different times this year:

- In May
- In July
- Expected in September
- At year end 2020

- More than 50 percent
- 5-50 percent
- None
- Don't know
1 in 6 firms say they could not last more than three months under current conditions.

Actually seeing steady improvement in solvency …

… might be from previous respondents dropping out.

Solvency: If current economic conditions persist, how long could your firm stay solvent?
AND LASTLY: OUTLOOK

Half full:
• 1/2 of respondents are not pessimistic

Half empty … circumstances remain tough for many firms

What is your outlook for the remainder of 2020?

- Likely to go out of business: 0%
- Very pessimistic: 5%
- Somewhat pessimistic: 10%
- Neutral: 15%
- Somewhat optimistic: 20%
- Very optimistic: 10%
- Don't know: 0%
MOVING FORWARD: TRACKING COVID

• CONTINUED SURVEY WORK
• MORE & BETTER REAL-TIME MEASURES OF ECONOMIC ACTIVITY
LOOKING AHEAD: BETTER REAL-TIME DATA

COVID-19 and the Ninth District economy: A dashboard
