Notes on Individual States (1996)

California	An applicant may substitute two years of education for two years of experience; however, an applicant must also meet prelicensing education requirements.
D.C.	Bond required ranges anywhere from \$12,500 to \$200,000, depending on the total dollar amount of loans brokered in the previous year.
Florida	Each firm must have a qualified principal broker that meets specific requirements.
Georgia	Licensee must maintain a bond in the amount of \$50,000 OR maintain a verifiable tangible net worth of \$25,000.
Hawaii	Every person licensed as a mortgage broker shall deposit with the commissioner, prior to doing business, a bond in the amount of \$50,000, executed by the mortgage broker as principal and a surety company authorized to do business in the state as a surety; provided that a mortgage broker who does not engage in mortgage servicing or collecting may apply to the commissioner for a lower bond requirement of \$15,000 on the application form prescribed by the commissioner.
Idaho	The applicant OR each of the individuals in charge of applicant's places of business in this state, each have a minimum of three years experience in residential mortgage lending.
Illinois	The applicant must file proof satisfactory to the commissioner that the applicant, the members thereof if the applicant is a partnership or association, the members or managers thereof that retain any authority or responsibility under the operating agreement if the applicant is a limited liability company, or the officers and directors thereof if the applicant is a corporation have three years' experience immediately preceding application in real estate finance. Instead of this requirement, the applicant may satisfactorily complete a program of education in real estate finance, as approved by the commissioner, within nine months of receiving the initial license.
Maryland	Bond required ranges anywhere from \$12,500 to \$200,000, depending on the total dollar amount of loans brokered in the previous year.
Michigan	An applicant who receives funds from a prospective borrower prior to the closing of the mortgage loan must maintain a net worth of \$25,000.
Missouri	A bond of \$20,000 is only required of a person who is licensed pursuant and if such person is appointed or elected to any position requiring the receipt of payment, management or use of any money belonging to a residential mortgage licensee engaged in the activities of originating, servicing or purchasing mortgage loans or whose duties permit such person to have access to, or custody of, any of the licensee's money or securities or custody of any money or securities belonging to third parties or whose duties permit such person to regularly make entries in the books or other records of a licensee. Such person shall before assuming such person's duties, maintain a surety bond in the amount of \$20,000 by a fidelity insurance company licensed to do business in this state or a letter of credit in such amount issued by a financial institution that is insured by the Federal Deposit Insurance Corporation.
Nevada	An applicant must have two years of verifiable experience in lending money for real estate or mortgages and knowledge of generally accepted accounting practices and bookkeeping procedures evidenced by verifiable experience in working in these areas or must have an appropriate educational training, or both.

New Jersey	The bond requirement ranges from \$25,000 to \$125,000.
New Mexico	Although New Mexico appears to have minimal restrictions, they probably have even less restrictiveness then displayed here. Until a later date, nearly all mortgage brokers were exempt from the registration requirement because of specific language in the statute.
New York	An applicant must have two years of credit analysis or underwriting experience with an exempt organization, mortgage banker, mortgage broker or relevant business experience or have a relevant educational background suitable to meet the requirement.
Ohio	An applicant must have three years of experience in the mortgage and lending field, which experience may include employment with or as a mortgage broker or with a financial institution, mortgage lending institution, or other lending institution, or possesses at least three years of other experience that the superintendent determines OR at least an associate's degree in an area relating to finance, banking, or business administration, and the degree was earned at an accredited college or university, including an accredited community or technical college.
Oklahoma	A \$10,000 bond is required if the credit service organization will charge or receive any money or other valuable consideration prior to full and complete performance of the services.
Pennsylvania	Although a \$100,000 penal bond is required, mortgage brokers who can demonstrate to the satisfaction of the department that they do not accept advance fees are exempt from the requirement.
South Carolina	An applicant must maintain a \$10,000 bond or \$10,000 in cash/securities.
South Dakota	Although South Dakota appears to be a restrictive state, this may be overstated due to the fact that mortgage brokers were licensed as real estate brokers. The 1996 statutes state that the commissioner may approved a limited real estate broker license for those real estate brokers that only broker mortgage loans. However, the actual regulations concerning the limited license are not available.
Tennessee	An applicant must maintain a net worth of \$25,000 for each office in Tennessee.
Washington	Either the applicant or one of its principals, who may be designated by the applicant, have at least two years of experience in the residential mortgage loan industry or have completed the educational requirements established by rule of the director. A licensee must maintain a bond between \$20,000 and \$60,000, depending upon the average number of loan originators per month that were employed by the licensee during the 12 months before submitting an application for licensure.
West Virginia	Only a credit service organization that charges a buyer or receives from a buyer money or other valuable consideration before completing performance of all services the credit services organization has agreed to perform for the buyer must have a surety bond.
